DRC Company Overview

PURETRANS DRC is a privately-owned logistics provider with more than 18 years of active expertise across Central and Southern Africa.

Founded in 2008 and headquartered in Lubumbashi.

- ✓ **Strategic Alignment**
Deep alignment with global trading companies and local mining majors.
- ✓ **ARSP Certified**
Completely registered and compliant with all local content regulations in the DRC.
- ✓ **Regional Corridors**
Highly specialized corridor operations linking key landlocked mining deposits to regional seaports.

Vision, Mission & Core Values

Company Vision

To be the most trusted logistics partner in Sub-Saharan Africa, supporting the DRC's growth and industry.

Our Mission

Provide safe, reliable, and on-time logistics through local expertise, strong assets, and operational excellence.

Our Values

Prioritizing safety everywhere. We enforce strict safety gear rules, manage driver fatigue, and prevent spills.

Our personal touch defines us, delivering top-tier standards on every route we travel.

Integrated Freight Forwarding

We provide smooth road and rail freight solutions across Southern and Central Africa to keep the mineral supply chain moving.

35,000 MT Monthly Volume

Constant and reliable capacity managed on main regional transport routes to and from the DRC.

- ✓ **Cross-Border Transport:** Smooth coordination across multiple national borders.
- ✓ **Mining Cargo:** Copper and cobalt exports and heavy mining equipment transport.
- ✓ **Chemical Logistics:** Expertise in transporting mining reagents and acids.
- ✓ **Route Experts:** Management of local shunting operations and international transport.
- ✓ **Fleet Capacity:** Own assets and a network of over 500 sub-contracted trucks.

Fleet Operations

We manage a heavy-duty, modern in-house transport fleet configured specifically for traversing difficult routes and securing key mineral corridors.

50+

TRUCKS

50+

TRAILERS

500+

PARTNER UNITS

- ✓ **GPS Tracking:** Continuous 24/7 satellite monitoring of all mobile assets.
- ✓ **Fleet Management:** Strict diagnostic regimes and preventive workshop cycles.
- ✓ **Dispatch Team:** Dedicated controllers managing route schedules.
- ✓ **Mining Expertise:** Licensed drivers trained for the Copperbelt terrain.

Warehousing & Storage

Strategically positioned logistics hubs equipped to manage heavy-duty offloading, secured stacking, and compliant reagent containment.

Kolwezi Flagship Facility

-  19,000 SQM covered warehouse & canopy.
-  100,000 SQM total secured industrial land block.

- ✓ **Open Storage Yards:** Designed for flatbeds and heavy cargo staging.
- ✓ **Copper & Cobalt Storage:** Specialized secure copper cathode containment.
- ✓ **Inventory Management:** Standardized cargo tracking and accounting.
- ✓ **Weighbridge:** In-bound/out-bound verification and tonnage certification.

Structured Operations

We achieve operational excellence by deploying standardized management protocols across our entire shipping value chain, ensuring complete control over every route.

Dispatch Control

Centralized routing and coordination across all borders, avoiding delay hot-spots.

Delivery Monitoring

Continuous real-time movement tracking to provide precise client ETA predictions.

POD Management

Strict, verified proof of delivery protocols returned to the shipper within target windows.

Inventory Management

Accurate stock visibility maintained at central hubs with secure digital tracking.

Cargo Visibility

End-to-end shipment status reports available to clients for peace of mind.

Customer Support

Dedicated client liaison teams resolving queries promptly with local coordination.

Health, Safety & Environment

ZERO HARM TARGET

Safety is non-negotiable. Every employee, contractor, and load is protected by disciplined HSE practices aligned with international mining industry standards.

REGULATORY & STANDARDS COMPLIANCE

Our HSEC framework meets strict customer safety protocols and regional mining audit parameters across critical routes.

- ✓ **PPE Compliance:** Helmets, hi-viz, safety boots, and gloves enforced site-wide and during transit shunts.
- ✓ **Fleet Inspections:** Compulsory pre-trip, daily, and scheduled mechanical diagnostic checks.
- ✓ **Driver Safety Programs:** Comprehensive defensive driving education, speed limits, and fatigue tracking systems.
- ✓ **Risk Assessments:** Detailed pre-route hazard evaluation and cargo-specific handling analyses.
- ✓ **Environmental Compliance:** Proactive spill prevention kits, fuel accountability, and chemical containment setups.

Strategic Multi-Corridor Rail Operations

We optimize regional transit routes via the Dilolo corridor to Luanda ports and the Sakania corridor to Ndola and Dar es Salaam.

Corridor 1: Kolwezi – Dilolo – Luanda port corridors.

Corridor 2: Likasi/Lubumbashi to Ndola.

Core Services: Copper cathodes export and mining reagents import.

Expansion: Dedicated logistics yard secured at the Dilolo border crossing.

Global Trading and Commodities Sourcing

- ✓ Supply of over 40,000 tons per month of mining reagents to major mining companies in the region.
- ✓ Flexible delivery terms (DDP / DAP) tailored to customer needs.
- ✓ End-to-end logistics management: BV certification, customs clearance, and final site delivery.
- ✓ Strategic bonded stock held in key warehouses to ensure direct supply.
- ✓ Specialized trading operations and regional supply chain management.

We handle procurement, secure transport and site delivery — with full environmental compliance.

Products Supplied

Sulphuric Acid

Sulphur

Quick and Hydrated Lime

Coal, MGO, SMBS

DRC Export Site Management

We provide hands-on loading management services at production sites, ensuring smooth operations and connecting local extraction activities with global commodity markets.

- ✓ **Qualified On-Site Presence:** Experienced, dedicated loading coordinators stationed permanently at the majority of major regional mine sites.
- ✓ **Rapid Mobilization:** Our experienced operations teams can be mobilized quickly to any new mining site or warehouse.
- ✓ **Offtaker Coordination:** Active day-to-day engagement and alignment with leading international commodity trading houses and offtakers.
- ✓ **Real-Time Coordination:** Instant status updates on loading volumes, documentation flow, and proactive engagement with mines' particular on-site agents.
- ✓ **Documentation Services:** We ensure all export certificates, clearances, and related paperwork are obtained smoothly and on time.

Infrastructure & Physical Assets

Location / Asset Class	Property & Land Assets	Fleet & Machinery Setup	Strategic Value / Role
Kolwezi Hub	100,000 SQM total land area	19,000 SQM covered warehouses	Primary operations & reagent storage center
Lubumbashi HQ	18,000 SQM land property	Administrative office block	Central coordination & dispatch control
Rail Wagon Fleet	Angola/Zambia Corridors Access	4 locos and 104 high-capacity rail wagons	High-volume mining reagent import & cathode export
Long-Haul Road Fleet	Multi-corridor authorization	50+ heavy trucks	Consistent local shunting support
Partnership Fleet	Zambia / TZ / Moz Corridors	500+ co-financed partner trucks	Highly elastic, scalable corridor capacity

Legal & Compliance Status

 ISO 9001, 14001 and 45001 Certified Quality Management System Certification	 RCCM CD/LSH/RCCM/17-B-05579	 ID NAT 6-83-N35773B
 NIF A1818008U	 VAT Registration 9160/2025	 ARSP Registration 3984069118

Map of Corridors and Locations

Presence in DRC and Regional

Lubumbashi: DRC Headquarters

Kolwezi: DRC Operational Hub

Representative Offices:

- Likasi, Kasumbalesa, Sakania, Dilolo
- Zambia: Ndola (HQ & Hub)
- Angola: Luanda (HQ), Luau (Ops Hub) and Lobito
- Tanzania: Dar Es Salaam

Our Operational Advantages

18 Years Expertise

Strong experience operating in the DRC, including smooth handling of key border crossings such as Kasumbalesa and Dilolo.

Multi-Modal Setup

Fully integrated road and rail transport, reducing exposure to border congestion and delays.

Prime Staging Sites

Over 120,000 SQM of strategic secure logistics yards and warehouses across Lubumbashi and Kolwezi.

125+ Skilled Staff

Highly skilled, in-country operational dispatchers, warehousing, HSE officers, clearing experts and tracking controllers.

Scalable Fleet Access

An in-house fleet scaled up through strategic partnerships with access to 500+ co-financed partner trucks.

Full Compliance

Completely licensed ARSP provider with ISO 9001 quality systems meeting premium mining audit metrics.

Who We Serve

Mining Majors & Asset Owners

Copper and cobalt producers and asset owners operating across the Copperbelt.

Global Commodity Traders

International trading houses moving metals and reagents through the region.

Mining Subcontractors

Contractors needing reliable in-country logistics and dedicated site support.

EPC & Engineering Firms

Project cargo and equipment logistics for construction and expansion works.

Reagent & Consumables Suppliers

Producers of sulphur, acid, lime and MGO supplied into the DRC.

Offtakers & Buyers

Day-to-day coordination with international offtakers and buyers.
